# THE UMOJI PROSPERITY KIT: FROM REBIRTH TO REIGN

**Mission:** To build wealth, emotional intelligence, and legacy.

## PART 1: THE ELEVATION LETTER

(Center Header: Insert UMOJI Logo)

### FROM THE DESK OF UMOJI

To the Architect of the Future,

Congratulations. You have done the hardest part. You survived the storm, and you laid the foundation during your "Genesis Rebirth." You have proven you can stay free. Now, the question changes.

We are no longer asking, "How do I stay out?"

We are now asking, "How high can I climb?"

This is your **Prosperity Kit**. Prosperity is not just money in the bank—though that is part of it. Prosperity is peace in your mind, power in your network, and purpose in your steps. It is the "Gucci Energy" of knowing your value is so high that the world cannot afford to ignore you.

You possess a set of skills that others do not. You have resilience. You have patience. You have the ability to navigate high-pressure environments. In the business world, these are called "Executive Soft Skills." You are not starting from zero; you are starting from experience.

This kit provides the blueprints to build your Empire. It demands discipline, it demands vision, and it demands that you never, ever shrink yourself again.

Welcome to the High Level.

## **PART 2: THE "CEO" MINDSET MODULE**

*We stop thinking like an inmate. We start thinking like an Executive.*

### THE REBRANDING EXERCISE

The world sees you how you introduce yourself. Stop apologizing for your past. Leverage it.

The Old Introduction:

"Hi, I'm [Name], I just got out and I'm looking for a chance."

(Weakness. Pleading. Liability.)

The UMOJI Prosperity Introduction:

"Hi, I'm [Name]. I am a Resilience Expert and a Builder looking to bring my drive and discipline to a high-performance team."

(Strength. Value. Asset.)

### THE DAILY "IPO" (Initial Public Offering) CHECK

Every morning, ask yourself these 3 questions:

1. **What is my Stock Value today?** (Am I dressing, speaking, and acting like a high-value asset?)
2. **Who are my Shareholders?** (Who am I working for today? My children? My future self? My community?)
3. **What is my Dividend?** (What value am I giving back to the world today?)

---

## PART 3: THE WEALTH ARCHITECTURE

*Money is a tool, not a master.*

### THE 70/20/10 RULE OF NGUVU FINANCE

Divide every dollar that comes into your hands:

- **70% - OPERATIONS:** Rent, food, transport. The cost of doing business (living).
- **20% - THE FORTRESS:** Savings. This is your "F-U Money." It protects you from having to make desperate decisions that lead back to prison.
- **10% - THE SEED:** Invest in yourself (books, courses, tools) or give to your community. This signals to the universe that you have more than enough.

### THE "SKILL TRANSLATION" MAP

You learned skills inside. Translate them for the marketplace.

- *Running a block/unit* = **Logistics & Operations Management.**
- *De-escalating conflict* = **Customer Relations & Crisis Management.**
- *Hustling legal work/appeals* = **Research & Administrative Compliance.**

## PART 4: PRINTABLE TOOLS (CUT OUTS)

*(Instruction: Print on cardstock. These are your tools for manifestation and strategy.)*

### TOOL 1: THE "BOARD OF DIRECTORS" GRID

*A CEO does not walk alone. Fill in the names of the people who hold these seats in your life. If a seat is empty, your goal is to find someone to fill it.*

THE SEAT	THE ROLE	THE PERSON (Write Name)

<b>The Mentor</b>	Someone who has been where you are and is where you want to be.	_____
<b>The Connector</b>	Someone who knows people and speaks your name in rooms you aren't in.	_____
<b>The Challenger</b>	Someone who loves you enough to tell you when you are wrong.	_____
<b>The Protégé</b>	Someone you are teaching. (To keep it, you must give it away).	_____

**"I DO NOT CHASE MONEY. I ATTRACT PROSPERITY THROUGH MY DISCIPLINE."**

[PAGE 5: THE LEGACY PLEDGE]

(Center Header: Insert UMOJI Logo)

## THE LEGACY CONTRACT

I, \_\_\_\_\_, understand that Prosperity is not an accident. It is an intentional act of design.

I acknowledge that I am a **Scholarly Practitioner** of my own life. I study my failures to turn them into degrees of wisdom.

I pledge to:

1. **Protect my Brand:** I will not engage in low-vibrational activities that damage my name.
2. **Build my Table:** I will create opportunities, not just wait for them.
3. **Lift as I Climb:** As I succeed, I will reach back to pull another brother or sister up.

I am no longer serving time. I am serving notice to the world that I have arrived.
